Hi Lorena,

I hope all is well and happy Friday! Yes, as I explained to our guys over here, the cart was placed outside well before either of us were around (not blaming anyone). They just wanted to remind me to make sure that it stays inside from now on and that sounds like the plan. PLEASE, I need to know now of a location to place the Donkey cart so that I can get our folks to move it there. I'm thinking that we have plenty of carts at B93 and this cart should be placed at B91/92 at the bottom of the escalator or somewhere in that building. I think we can place it there for now and it would be easy to move it a short distance since it's on wheels is we find a better place. I would hope that we can place materials on this cart when there is a cruise ship at B91/92.

And I'm not sure what you're asking about when it comes to embarkation/debarkation at POC - please explain?

Thanks,
Augie

Hi Augie,

Thank you for arranging the donkey cart to be fixed. I have no idea how it got outside. I've been in communication with Leticia and let her know that you had it repaired and that it became damaged because it got moved outside. Hopefully, that will clarify that it needs to stay indoors. I also asked her opinion regarding your proposed location.

I also want to follow up on your comment about embarkation, debarkation and ports o' call. That would be EXTREMELY helpful to us.

Francis recently got her TWIC card and Leticia will be putting her on a "long-term access list" to facilitate her getting into the cruise terminal to replenish the brochures. She replenished them today.

Hi Lorena,

Our guys fix the donkey cart that was in front of the Iowa and they want to place it inside one of the Terminals (they want to make sure that it is never used outside again – they were a little upset about that). I’m thinking we have enough of these carts at B93 and I’m thinking of placing it in the B91/92 cruise Terminal, downstairs where the escalator ends. What do you think?

Thanks,
Augie
